CO-OP SERVICES AT ILAC IC

“The co-op team at ILAC College offers our students the coaching and tools needed for their career success. Throughout their studies, we build with students their resumes, explore and practice job interview skills, assist in their job search and connect them with our partner employers. It is equally excited for us to be able to join students on this path and land the helping hand in developing their future. **The college team walks with students step by step on their Canadian journey, to make sure they have the support they need.**”

Andrej Pucek - Practicum Placement Advisor, ILAC International College

CO-OP PROFILES

Name: **Cleidelene Azevedo** Industry: **Retail** Position: **Sales Associate**

"I moved from Brazil looking for a new experience and opportunities to increase my knowledge and professional development. I chose ILAC because I had some previous memories about friends that had studied before. The course I chose would give me **the skills I need to work at the Canadian workplace** and a theoretical foundation to grow and learn."

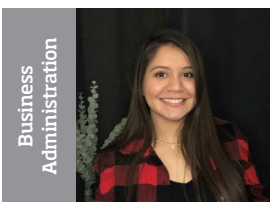

Name: **Yuka Ando** Industry: **Food Service** Position: **Server**

"The school's instructors gave useful knowledge and information, such as how to tell our idea effectively, how to prepare for an interview, how the Canadian workplace is like, and how to handle situations in customer service. **Those studies gave me confidence to attend interviews and communicate with customers** in English smoothly."

Name: **Patrizia Brignoli** Industry: **Marketing** Position: **Junior Marketing Specialist**

"My teachers were very prepared and during my study portion I worked at very interesting projects, besides updating my knowledge and learning new things, essential to enter the Canadian workplace. **During my Co-op I had the chance to put into practice what I have learned during my classes.** I was lucky to work with a very diverse and collaborative team, especially during the lockdown, when we were asked to work from home. I am very thankful for the opportunity!"

Name: **Susana** Industry: **Education** Position: **Admissions Coordinator**

"The work experience component of my program has helped me to reinforce the knowledge acquired in the classroom. One of the most satisfactory elements of my co-op placement was the **opportunity to share a workplace with co-workers that have different professional and cultural backgrounds** and being able to learn from each of them. I think this experience will help me to be better prepared to perform my career in the future."

Name: **Salazar Valladares** Industry: **Health Care** Position: **Administration**

"I learned how to work with different cultures in health care, and improve my skills talking and listening in English. I liked my co-op because **it helped me to improve my knowledge in health care** and put in practice my nursing degree back home. I think this program in ILAC was the first step to come to Canada with the opportunity to work as international student and realize about the real life in Canada."
